TCN Behavioral Health Announces Consolidation of Xenia Services

Youth Services moving to Xenia location for better client care.

Xenia, Ohio - November 30, 2022 - TCN Behavioral Health Services, Inc. will be transitioning its youth services to our 452 West Market Street location in Xenia, Ohio. The former FSC building, located at 287 Cincinnati Avenue in Xenia, will be listed for sale.

“We’re excited about consolidating services at our Xenia location,” said Associate CEO Tom Otto. “This allows us to bring families back together by enabling them to receive services from youth and adult counselors, psychiatrists, case managers and nurses in the same convenient location.”

TCN’s consolidation of youth and adult services at the Xenia location will expand access for youth to services like Medication Assisted Treatment (MAT) and promotes efficient collaboration between multiple providers for youth clients. The transition will also enable families to benefit from TCN’s crossover programs that help young clients transition from youth to adult services, including the FIRST program and SPMI Case Management, in addition to future programming in development.

Founded in 1990, TCN Behavioral Health Services, Inc. is a comprehensive behavioral health agency dedicated to improving lives by providing clinically excellent and accessible behavioral health services. TCN provides mental health, substance use and psychiatric services for adults and youth in Champaign, Greene, Logan, Miami and Montgomery counties. For more information or to donate to TCN call (937)376-8700 or visit www.tcn.org.
